### Burning Regulations

As the warmer weather approaches, the City of Salix would like to remind residents that only recreational fires, such as bonfires, and the burning of landscape waste that originated on the premises are allowed. Trees and tree limbs should be taken to the city's onsite burn pile. Garbage, tires, trade wastes, and any locally recyclable goods or plastics may not be burned. Some material and green grass/leaves will cause excess smoke which is particularly harmful to those with breathing issues. Please be respectful of neighbors and do not allow fires to smolder. Choose recycling over open burning wherever possible to avoid harmful emissions and improve air quality.
